Live checklist (one screen)

Rev ≥45.8 / in-guide / <44.6 · GM ≥67 / 65–67 / <65 · EPS vs $4.52 · CoWoS/N2 · 2027 capex · AI vs phone/PC · China mix · peer tape (NVDA AVGO AMAT KLAC MU ARM INTC).

Falsifiers

1. Beat print, down stock → guide/commentary priced. 2. Miss print, SOX up → macro/positioning. 3. Capex up, SPE down → returns fear. 4. OS outside bands → forecast error. 5. China mix drives idiosyncratic dump → geopolitics factor.
